These 4-Person Scramble format tournaments are great for golfers of all skill levels while helping raise money for a worthy cause. Our SoCal Golf Tournament attracts over 100 solar professionals and is a great way to develop or further business relationships with customers and vendors while enjoying a relaxing morning of golf followed by a sitdown lunch.

Sponsors of all levels will benefit from the intimate networking opportunities afforded by a day spent on the links, while also promoting their brand to top solar executives and decision makers. We are offering three levels of sponsorship packages as well as a la carte sponsorship options.

All event proceeds go towards supporting the California Solar & Storage Association's continued success fighting for the policies that protect and grow the nation's most important solar and storage market, California.

About the Course

Set against the majestic backdrop of the Saddleback Mountains, Oak Creek provides one of the most beautiful settings among all Southern California golf courses making it a course that will inspire you every time you play. This Tom Fazio designed course, named after the beautiful creek that runs through it, welcomes golfers of all skill levels. Featuring tapered fairways, picturesque greens, beautiful lakes and bull-nose carved bunkers, Oak Creek rewards your senses as it beckons your competitive spirit.
